Year 3 Maths Learning

Dear Parents/Carers,

We are excited to share that Year 3 will be starting an engaging unit about time in their maths learning over the next few weeks. To help your child become more confident and familiar with these concepts, we kindly ask for your support in introducing and discussing this topic at home where possible.

We will be covering both analogue and digital clocks. The national curriculum requires we cover the following concepts:

- tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks
- estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight
- know the number of seconds in a minute and the number of days in each month, year and leap year
- compare durations of events [for example to calculate the time taken by particular events or tasks].

Children often find this topic challenging, so any learning you can do at home will greatly benefit them in the classroom.

We truly appreciate your support in this matter!
