1. Aims

This policy aims to ensure that:

Suitable education is arranged for pupils on roll who cannot attend school due to health needs

Pupils, staff and parents understand what the school is responsible for when this education is being provided by the local authority

2. Legislation and guidance

This policy reflects the requirements of the [Education Act 1996](#).

It also based on guidance provided by our local authority.

This policy complies with our funding agreement and articles of association.

3. The responsibilities of the school and Local Authority

If the school cannot make suitable arrangements, Hampshire Local Authority will become responsible for arranging suitable education for these children. The school will aim to support the LA for pupils who are unable to attend school due to medical needs.

Where the Local Authority is involved in arranging provision, the expectation from the school is that the LA will:

- Arrange suitable full-time education (or as much education as the child's health condition allows) for children of compulsory school age who, because of illness, would otherwise not receive suitable education.
- Provide such education as soon as it is clear that the child will be away from school for 15 days or more, whether consecutive or cumulative. They should liaise with appropriate medical professionals to ensure minimal delay in arranging appropriate provision for the child.
- Ensure that the education children receive is of good quality and allows them to take appropriate external tests, prevents them from slipping behind their peers in school and allows them to reintegrate successfully back into school as soon as possible.
- Address the needs of individual children in arranging provision. 'Hard and fast' rules are inappropriate: they may limit the offer of education to children with a given condition and prevent their access to the right level of educational support which they are well enough to receive. Strict rules that limit the offer of education a child receives may also breach statutory requirements.
- Where full-time education would not be in the best interests of a particular child because of reasons relating to their physical or mental health, provide part-time education on a basis they consider to be in the child's best interests. Full and part-time education should still aim to achieve good academic attainment particularly in English, Maths and Science. The nature of the provision must be responsive to the demands of what may be a changing health status.

- Where appropriate, use electronic media – such as ‘virtual classrooms’, learning platforms and so on – to provide access to a broader curriculum, but this should generally be used to complement face-to-face education, rather than as sole provision (though in some cases, the child’s health needs may make it advisable to use only virtual education for a time). The school will endeavour to ensure the quality of this is as close to face to face teaching as possible.
- ensure that teachers who provide education for children with health needs receive suitable training and support and are kept aware of curriculum developments. They should also be given suitable information relating to a child’s health condition, and the possible effect the condition and/or medication taken has on the child.
- Set up a personal education plan, which should ensure that the school, the Local Authority, hospital school or other provider can work together.
- Ensure effective collaboration between all relevant services (LAs, CAMHS, NHS, schools and, where relevant, school nurses) in delivering effective education for children with additional health needs. In cases where the local authority makes arrangements, the school will:
- Work constructively with the local authority, providers, relevant agencies and parents to ensure the best outcomes for the pupil
- Share information with the local authority and relevant health services as required
- Help make sure that the provision offered to the pupil is as effective as possible and that the child can be reintegrated back into school successfully

When reintegration is anticipated, work with the local authority to:

- Plan for consistent provision during and after the period of education outside the school, allowing the pupil to access the same curriculum and materials that they would have used in school as far as possible
- Enable the pupil to stay in touch with school life (e.g. through newsletters, emails, invitations to school events or internet links to lessons from their school)
- Create individually tailored reintegration plans for each child returning to school
- Consider whether any reasonable adjustments need to be made

4. Monitoring arrangements

This policy will be reviewed annually by the headteacher. At every review, it will be approved by the full governing board.
