

The Crescent Primary School

Curriculum Vision Statement:

Reach for the stars

Working together

Learning for life

At The Crescent Primary School we will collaborate and work in partnership with parents, families and the local community to provide a rich, varied and engaging curriculum with a real purpose and meaningful context that is relevant and linked to the children's needs and interests.

We aim to:

- Provide children with a safe and secure (ambitious, stimulating, challenging) environment where children can take risks and mistakes are acknowledged as being part of the learning process.
- Develop the children's skills as independent learners, allowing them to be curious, resourceful and reflective; and able to give and respond to feedback.
- Develop and enhance children's communication skills by offering a wide range of opportunities to present their ideas in innovative and interesting ways, including the use of technologies.
- Encourage the children to develop a wide range of interests which will help them to appreciate the need and benefits of a healthy life style.
- Promote children's self-esteem and emotional well-being and help form and maintain worthwhile and satisfying relationships, based on respect for themselves and for others.
- We will promote equal opportunities and enable children to challenge discrimination and stereotyping by celebrating diversity and understanding difference. (Adopt UNNESCO articles for the rights of the child)
- Give children the opportunity to develop leadership skills and pupil voice.
- Develop the children's understanding of and respect for the environment.
- Prepare children for the next steps in their education, training and employment and equip them with transferable skills enabling them to cope with change and transition and to make informed choices at school and throughout their lives.
